State of Montana VPN Remote Access

VPN – Virtual Private Network

Open "Cisco AnyConnect Secure Mobility Client" by searching for it in the Start menu:
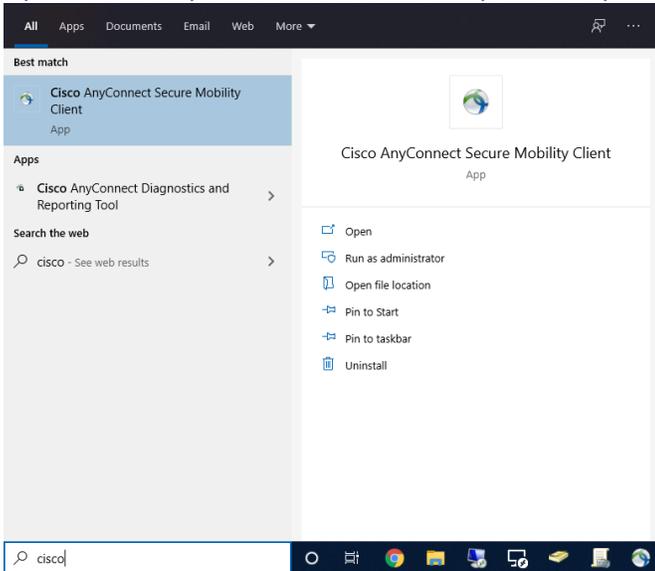

Or by clicking on the white tennis ball icon in the taskbar:

Type "entvpn.mt.gov" in the box and click Connect.
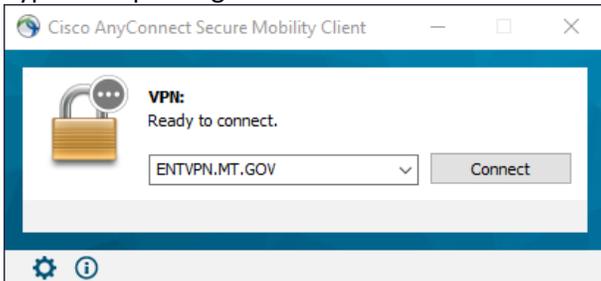

Enter your Login Credentials in the pop up box.
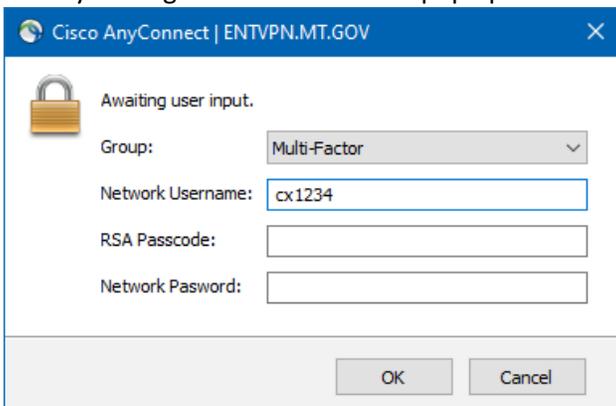

If you don't have your network drives, run the script for your group that is saved on the desktop, or navigate to:
\\dmahln1000\netlogon
And run the script for your group located in that folder.
